## APR/MAY/JUN 2011

## HIGHLIGHTS

### Every Day Is Earth Day

Together, we can work toward a cleaner, healthier environment for all.

### Cleaning LCD Screens

Back in the old days, a squirt of window cleaner was just fine for shining up your TV or computer monitor. Not so with today's LCD screens. To remove streaks and smudges, gently wipe LCD screens with a barely damp microfiber cloth. Never spray anything directly on an LCD screen.

### Recycle Those Light Bulbs

Energy-saving compact fluorescent light bulbs contain small amounts of mercury, so you can't just toss them in the trash. Go to [LampRecycle.org](http://LampRecycle.org) to find places where you can drop off unbroken bulbs.

### Mind Your Medicines

More does not always mean better, especially when it comes to medicine. You should never take over-the-counter drugs in higher doses or for longer periods of time than the label recommends. Persistent symptoms are an indication that it's time to see a doctor.

### Easy Way to Cut Calories

To save more than 200 calories on your sandwich, ditch the slice of cheese and trade the mayonnaise for naturally low-calorie mustard.

### The Big Dance in Houston

The Final Four is April 2-4.

## BULLETIN BOARD

## NOTES & NEWS

### Bright Idea

Several times each year, check the batteries in your emergency flashlights and radio. During severe weather, you won't want to search for replacements.

### Pantry Patrol

If you're cooking for only one or two, food may wind up sitting in your cupboard or refrigerator for a long time. Rotate your food stock, just like stores do, to make sure you're using items before they've expired.

### Seasonal Selections

Spring into healthier eating habits by loading up on these delicious, in-season fruits and veggies.

*Vegetables:* Artichokes, asparagus, lettuce, spinach, peas, broccoli, green beans, rhubarb, collard greens and mustard greens.

*Fruits:* Strawberries, mangoes, limes and oranges.

### Bumper Sticker Snicker

After all is said and done, usually more is said than done.
